Make Money Online with AI

THE OPERATOR BLUEPRINT

PATH 12

Local businesses + AI

Nearby owners still need pages, replies, and simple videos. Cash while digital compounds.

Who this is for

You live near businesses that still get customers from Google, word of mouth, or a dusty site.

First sale

One local yes and a deposit.

Time to first

3–14 days of walking and writing

Cash window

\$400–\$2,000 packages

Tools

A one-page PDF of the package, Stripe or e-transfer, your phone.

Leave this alone

City-wide 'we do all AI' agencies.

The package

Pick one trade: dentists, gyms, cleaners, trades. Offer a named week: AI-drafted page plus five posts, or five videos, delivered by Friday. You edit every draft before they see it. You are the quality, not the model.

Walk in or email with a one-page PDF. Price so one yes covers the week. Do not sell a 12-month retainer until you have delivered once.

The first 72 hours

Write the one-pager. List ten businesses. Visit or email five. Follow up the next day. The first yes is allowed to be a small job.

The path, step by step

Step 1. One trade. Learn their language.

Step 2. Show a sample made from public info, then offer to do theirs properly with their facts.

Step 3. Deposit. Kickoff. Draft. Edit. Deliver.

Step 4. Ask for a referral to the next owner on the same street.

Step 5. Notes from the job become a playbook you can sell to people not in your town.

Mistakes

Doing the work free as a 'trial.' Making claims the owner cannot legally make. Ghosting after the posts go up.

Copy and week-by-week

One-pager: 'Page plus five posts this week. Deposit today, files Friday.'

Day 1: PDF. Days 2–4: ten visits. Week 2: deliver and ask the next owner on the same street.

Close the book. Do the first 72 hours. Do not tour the rest tonight.
