Make Money Online with AI

THE OPERATOR BLUEPRINT

PATH 14

A small AI membership

The vault must stay useful if they never attend a call.

Who this is for

You can show up monthly with updated workflows after the one-time product has sold.

First sale

Three members who stay past month one.

Time to first

After you have buyers

Cash window

\$9–\$19/month

Tools

Stripe subscriptions or Stan, a simple member page.

Leave this alone

A \$99/month room with nothing inside. Launching this before path 1 has sold.

What members pay for

Updates, new templates, a monthly workflow when the models change. Not your personality, unless you can keep that promise when you are tired. Cancel anytime. Earn the next month.

Do not launch this to avoid finishing the one-time file. Membership is a second product for people who already trust you.

The first 72 hours

Write what members get that the book does not. Price \$9–\$19. Put three items in the vault before you open the door. Invite existing buyers first.

The path, step by step

Step 1. Vault first, calls optional.

Step 2. A monthly note: what changed in the tools, what file you added.

Step 3. Easy cancel. Refund the unused month if you vanish.

Step 4. Cap if you cannot support more people. Scarcity should be your calendar, not a fake counter.

Mistakes

Charging for a Discord that is dead. Never updating. Hiding the one-time product so you can milk a subscription.

Copy and week-by-week

'\$9/month for updates the book does not get. Cancel anytime.'

Only after the one-time file has sold. Week 1: three vault items. Invite existing buyers first.

Close the book. Do the first 72 hours. Do not tour the rest tonight.
